Mishandling Federal ACH exceptions can lead to potential losses!

With very few exceptions, Federal government ACH payments are subject to the same rules as private industry ACH payments. However, mishandling those exceptions can impact your bank and lead to potential financial losses. This session will help you learn and understand your responsibilities related to enrolling recipients in Federal government Direct Deposit benefit programs; posting and handling exception items (returns and NOCs); and processing Federal government reclamations. The Green Book, which is the Federal government's guide to addressing exceptions and issues unique to Federal government payments, will be referenced.

Continuing Education: Attendance verification for CE credits provided upon request.
